# Scientific Validation

To support the growing body of research studying the efficacy of cognitive training, HappyNeuron Pro's scientific team partners with research institutions worldwide to explore how HappyNeuron Pro helps with various conditions.

To see all of our research, scan the code or visit:  
[happyneuronpro.com/en/research/clinical-studies/](https://happyneuronpro.com/en/research/clinical-studies/)

We have clinical research studies in the following areas, and ongoing research projects.

General Brain Health  
Healthy Aging  
Stroke  
Severe Mental Health  
Schizophrenia and Psychosis  
Bipolar  
Return to Work  
Multiple Sclerosis

## Our Partners

We've developed partnerships with top universities, hospitals, and pharmaceutical companies worldwide. Here are just a few:

# Additional Cognitive Resources

In addition to our digital program, we offer resources like printable cognitive worksheets, CBT worksheets, and posters, as well as a physical cognitive workbook designed to provide clients with continuous practice after finishing their therapy.

These paper resources are great as supplemental activities, and for clients who may not respond as well to technology.

**Get free worksheets each month!**

Just sign up for our newsletter to get them in your inbox.
