

Happyneuron Pricing Guide

Our goal is to save clinicians time while expanding their therapeutic resources. We offer plans priced per clinician in order to streamline billing and account management processes. That way, you can run your business more efficiently, grow your practice, and focus on what matters most - helping your clients!

All of our plans include...

- Access to all 45 exercises
- Home workouts feature
- Instant & printable reporting
- Multiple languages
- Quarterly strategy meetings
- Self-serve training center
- Free worksheets delivered to your inbox

How to save:

We understand that each clinic's needs are different, so we offer the option to pay quarterly or annually for most of our plans.

Paying annually will **save you 30% off your plan.**

We also offer a **referral program.** Refer Happyneuron to another facility to receive 2 free months added onto your subscription.

Please note: All prices are in USD

Starter

1 clinician
5 patient accounts

\$59/month (\$708 yearly)

FAQs

Let's get into the details...

Which plan should I choose?

That depends on your practice size and how many clients you have.

- The **Starter plan** is meant for small practices - one clinician with 5 or fewer patients.
 - This plan includes 5 patient active accounts, which means that you can create 5 confidential accounts that provide automatic tracking for each patient. If one patient is discharged, another account can be created so that you always have up to 5 active patient accounts.
- The **Professional plan** is our most popular option. This tier is designed for mid-sized practices with multiple clinicians, typically between 2 and 5.
 - This plan includes unlimited patient accounts.
- The **Enterprise plan** is meant for large practices. If this plan seems the most appropriate for your organization, reach out to us so we can create a plan together.
 - This plan will allow the practice to keep consistent, automatic tracking for each patient under each clinician.

What about worksheets?

We have an extensive library of cognitive worksheets based on our digital exercises. While the digital program is considered to be more effective, worksheets can provide helpful supplementary activities, and can be useful for patients who dislike working with technology.

Subscriptions with yearly payments have a \$150 credit to get previous worksheet packets that fit the need of your clients.

Do you track usage?

Our system automatically tracks usage and will alert us if it appears an account is being overused or underused. In those cases, we'll reach out with new pricing options.

Is HappyNeuron Pro reimbursable?

Our tool is not directly reimbursable, but cognitive therapy is reimbursable. Our tool is the same as a dumbbell or a band you would use with a patient, except it doesn't wear out so you do not have to replace it! And, it has thousands of unique activities.

Ready to get started?
